

Ask CAMD on CAMPD (Clean Air Markets Program Data)

August 11, 2022 – 3 – 4 PM EST

Teleconference Line: +1 (202) 991-0477

Conference Code: 620 095 070#

This session will be recorded

Outline

Welcome – *Ming Chang, Chief of Market Operations Branch*

Review of CAMD
Re-engineering effort

CAMPD timeline

Walkthrough of CAMPD

CAMD Re-engineering Effort

- What?
 - A multi-year effort to re-engineer the CAMD Business Suite of tools
 - Phase 1:
 - Emissions Collection and Monitoring Plan System (ECMPS)
 - Air Markets Program Data (AMPD) ***Now CAMPD***
 - Phase 2:
 - CAMD Business System (CBS)
- Why?
 - Provide new functionality
 - Reduce maintenance costs
 - Meet agency directives & upcoming regulatory requirements
 - Improve security, accessibility, and performance

CAMPD

Pre-CAMPD 1.0

- UX research, design, development, testing

CAMPD 1.0 – June 27, 2022

- Custom Data Download Tool, Bulk Data Files, REST APIs
- Collecting user feedback
- Continued development on CAMPD 1.1

CAMPD 1.1 – *Tentative Fall 2022*

- Enhancements to Custom Data Download Tool & Interface
- New Bulk Data Files interface & datasets
- New Maps & Graphs section
- Collect user feedback

Future enhancements as identified

Questions from Ask CAMD

1. Will CAMPD offer the ability to query by signatories (i.e., Designated and Alternate Designated Representatives)?
 - a. Due to current privacy restriction requirements, CAMPD cannot display Designated Representative/Alternate Designated Representative information. Owner/operator information is available in the facility/unit attributes dataset.
2. Will CAMPD offer the ability to input a list of facility IDs (i.e., ORISPL Codes) into a custom query?
 - a. CAMPD does not offer the ability to copy and paste a list of facility IDs into its query builder. In CAMPD's upcoming release (version 1.1), the ability to bookmark or save custom queries will be available. Visit CAMPD's [About page](#) for more information.
3. Can queries be saved in CAMPD?
 - a. Custom queries can be bookmarked (or saved) in CAMPD's upcoming release (version 1.1). Visit CAMPD's [About page](#) for more information.
4. Will AMPD still be available and this new CAMPD as part of the site?
 - a. CAMPD has replaced AMPD as the primary source of emissions, compliance, allowance, and facility/unit attributes data.
5. Is data available by unit and facility?
 - a. Emissions data is currently available at the unit level. CAMPD's upcoming release (version 1.1) will also include emissions data at the facility, state and national levels. Visit CAMPD's [About page](#) for more information.
6. Are the data columns returned in a CAMPD query customizable?
 - a. This feature will be available in CAMPD's upcoming release (version 1.1) for both data preview and download. Visit CAMPD's [About page](#) for more information.
7. Is heat input data by fuel available in the system?
 - a. Only total heat input data is available. Visit CAMPD's [Glossary page](#) for information about available data elements.
8. When will CAMPD 1.1 be released?
 - a. CAMPD 1.1 is tentatively planned to be released in Fall of 2022. You can subscribe to CAMPD's email list to be notified of any CAMPD updates or enhancements at this [link](#). Additional release information can be found on CAMPD's [About page](#).
9. Will you be able to query emissions by owner/operator?
 - a. Currently, filtering by owner/operator is not available in emissions datasets, however, owner/operator data is available in the facility/unit attributes dataset.
